NATURAL DIASASTERS

Make a choice of one of the following.

i) Volcano
ii) Earthquake
iii) Cyclone
iv) Tornado
v) Tsunami (Tidal wave)

For the natural disaster of your choice write a report on the following:

a) Describe what causes this type of natural disaster?
b) What precautions should be taken, in order to survive this type of natural disaster if, you live in an area where they occur frequently.
c) Give a specific example of the natural disaster that you have chosen.
d) For your example state when and where it occurred.
e) What was the damage that occurred, in terms of buildings and life?
f) Include two interesting facts that you have found about this natural disaster.

To achieve maximum marks for this assignment you have to hand in your rough copy and a bibliography. Keep your assignment to two pages; remember it is quality not quantity.

NATURAL DIASASTERS

Make a choice of one of the following.

vi) Volcano
vii) Earthquake
viii) Cyclone
ix) Tornado
