Cornell notes Turner style
Instructions

- Cut out the notes on the right hand side and **paste** into the **right hand side** of your notebook page.
- **Include** the **vertical black line or redraw this line** – giving yourself a large left hand margin
- **Read** the notes several times
- **Ask** yourself **three questions**:
  1. Can I recognise all the content (information) in the notes?
  2. In the notes is there a process or procedure I need to know?
  3. Do I understand the idea/meaning/argument outlined in the notes. That is: do I "get it"?
- **Do the following**
  - **a.** Within the notes themselves, **underline** all the **content** you should learn or memorise.
  - **b.** In the left margin **label** each section of the notes as either a **definition**, **example**, **explanation**, **process**, or **evidence** (and you could make up your own categories)
  - **c.** With each label in step b, write a key word or phrase which tells us what the label is referring to. An example would be…

(note – the example is not for these notes - The key words are highlighted)

  - **d.** At the end of the notes **write a summary underneath the notes**. The summary should be **short** – it is to **demonstrate your understanding** of the notes, not rehash the content. Often you should try to draw a diagram or mind map.

Dihybrid Crosses

Dihybrid crosses are used to predict the outcome of a mating or cross when two separate genes, controlling separate traits are being investigated. A much larger punnet square is needed as two genes are being analysed for patterns of inheritance

Example:
If a male who is homozygous dominant for tongue-rolling, and heterozygous for brown eyes had offspring with female who was heterozygous for both tongue-rolling and hetero-brown eyes, what are the ratio of possible phenotypes and genotypes in the children?

Parent 1
Genotype – TTBb
Possible gametes: TB Tb TB Tb

Parent 2
Genotype – TtBb
Possible gametes: TB Tb tB tb

Every parent will have a maximum of 4 possible gametes.

	TB	**Tb**	**TB**	**Tb**
TB	**TTBB**	**TTBb**	**TTBB**	**TTBb**
Tb	**TTBb**	**TTbb**	**TTBb**	**TTbb**
tB	**TtBB**	**TtBb**	**TtBB**	**TtBb**
tb	**TtBb**	**Ttbb**	**TtBb**	**Ttbb**

⅛ TTBB 12.5%
¼ TTBb 25%
⅛ TTbb 12.5%
⅛ TtBB 12.5%
¼ TtBb 25%
⅛ Ttbb 12.5%

⅛	TTBB 12.5%	100% Tongue Rolling
¼	TTBb 25%	50% Homo Tongue Rolling
⅛	TTbb 12.5%	50% Hetero Tongue Rolling
⅛	TbBb 25%	25% Homo Brown Eyes
¼	TtBb 25%	50% Hetero Brown Eyes
⅛	Tbbb 12.5%	25% Homo Blue Eyes
