Magnesium **Mg** **Solid at room temp** **Light, shiny silver metal** **Mass =** **Atomic number =**	**Aluminium** **Al** **Solid at room temp** **Light, shiny silver metal** **Mass =** **Atomic number =**	**Beryllium** **Be** **Solid at room temp** **Light, brittle silver metal** **Mass =** **Atomic number =**	**Sodium** **Na** **Solid at room temp** **Soft, light silver metal** **Mass =** **Atomic number =**
Phosphorus **P** **Solid at room temp** **Waxy, white non-metal** **Mass =** **Atomic number =**	**Sulphur** **S** **Solid at room temp** **Brittle, yellow non-metal** **Mass =** **Atomic number =**	**Potassium** **K** **Solid at room temp** **Soft, shiny silver metal** **Mass =** **Atomic number =**	**Hydrogen** **H** **Gas at room temp** **Colourless non-metal** **Mass =** **Atomic number =**
Carbon **C** **Solid at room temp** **Black, brittle non-metal** **Mass =** **Atomic number =**	**Oxygen** **O** **Gas at room temp** **Colourless non-metal** **Mass =** **Atomic number =**	**Boron** **B** **Solid at room temp** **Black-brown metalloid** **Mass =** **Atomic number =**	**Chlorine** **Cl** **Gas at room temp** **Yellow-green non-metal** **Mass =** **Atomic number =**
Fluorine **F** **Gas at room temp** **Pale yellow non-metal** **Mass =** **Atomic number =**	**Calcium** **Ca** **Solid at room temp** **Shiny, silver metal** **Mass =** **Atomic number =**	**Nitrogen** **N** **Gas at room temp** **Colourless non-metal** **Mass =** **Atomic number =**	**Lithium** **Li** **Solid at room temp** **Light, shiny silver metal** **Mass =** **Atomic number =**
