Classifying Living Things

There are 7 levels in the classification system of living things. These are

1) _____
2) _____
3) _____
4) _____
5) _____
6) _____
7) _____

There are 5 kingdoms of living things

- Monera

  _____

- Protists

  _____

- Fungi

  _____

- Plants

  _____

- Animals

  _____

The Animal Kingdom

The animal kingdom is divided into **nine** phyla. These are

1) _____
2) _____
3) _____
4) _____
5) _____
6) _____
7) _____
8) _____
9) _____

The Chordates

_____

_____

_____

Some examples are:

_____

The Arthropods

_____

_____

Some examples are:

_____

The Molluscs

_____

_____

_____

Some examples are:

_____

The Echinoderms

_____

_____

Some examples are:

_____

The Nematodes

_____

_____

Some examples are:

_____

The Platyhelminthes

_____

_____

Some examples are:

_____

The Annelids

_____

_____

An example is:

_____

The Cnidarians

_____

_____

Some examples are:

_____

The Poriferans

_____

_____

_____

An example is:

_____
