Missing Words

invertebrate vertebrate four five birds fish reptiles mammals amphibians insects mollusks octopus squid gills lungs warm cold birds exoskeleton reptiles arthropods sea-urchin starfish worms

1) An animal that has a backbone is called a _ _ _ _ _ _ _ _ _ _ and an animal without a backbone is called an _ _ _ _ _ _ _ _ _ _ _ _.

2) There are _ _ _ _ main groups of vertebrates and _ _ _ _ main groups of invertebrates.

3) The five main groups of vertebrates are m _ _ _ _ _ _, r _ _ _ _ _ _ _, f _ _ _, a _ _ _ _ _ _ _ _ _ and b _ _ _ _.

4) _ _ _ _ _ _ like ants and bees are invertebrates.

5) Slugs and snails are _ _ _ _ _ _ _ _ that live on land and o _ _ _ _ _ _, s _ _ _ _ and cuttlefish are mollusks that live in the sea.

6) Mammals breathe using _ _ _ _ _ and fish breathe using _ _ _ _ _.

7) Most reptiles and fish are _ _ _ _ -blooded.

8) Mammals and birds are _ _ _ _ -blooded.

9) _ _ _ _ _ and _ _ _ _ _ _ _ _ lay eggs. All invertebrates lay eggs.

10) Scorpions, spiders, crabs and insects are called _ _ _ _ _ _ _ _ _ _ because they have hard bodies called an _ _ _ _ _ _ _ _ _ _ _ and jointed legs.

11) Animals like the s _ _ _ _ _ _ _ and s _ _ - u _ _ _ _ _ are called echinoderms.

12) _ _ _ _ _ are annelids because they have segmented bodies covered in bristles.

INVERTEBRATES (INSECTS, CRUSTACEANS and ARACHNIDS)

Fill in the blanks with the words from the box:

- Bees are _____ They have a thorax with six _____ and two _____, an _____, and a head with _____ and _____.
- Bees are _____. They eat nectar from flowers.
- Bees have a thin _____for protection.

wings	exoskeleton	eyes	legs
antennas	insects	abdomen	herbivores

- Crabs are_____.They have eight _____ and two _____. They have a _____ with _____ and _____.
- Most crabs are _____.
- Crabs have a thick _____.

pincers	exoskeleton	eyes	legs
antennas	crustaceans	body	omnivores

- Butterflies are _____. They have a _____ with six legs and wings, an _____, and a _____ with _____and two _____.
- They have a thin _____for protection.
- Butterflies are _____.

head	exoskeleton	eyes	thorax
antennas	insects	abdomen	herbivores

- Spiders are _____. They have eight _____. They have a _____, an _____, and a _____ with eyes and _____.
- They are _____. They eat insects.
- They have a thin _____for protection.

head	exoskeleton	abdomen	legs
mouth	arachnids	thorax	carnivores

- Dragonflies are _____. They have a _____ with six _____and four _____, an _____, and a _____with _____ and _____.
- Dragonflies are **omnivores.**
- Dragonflies have a thin _____for protection.

Animal Classification

To help scientists study the huge variety of life that exists on Planet Earth, we group together animals and plants that have things in common. This homework is about learning what makes an animal or plant belong to a particular group.

Firstly, all animals are split into two large groups. These groups are INVERTEBRATES and VERTEBRATES.

Q1. What feature about an animal decides whether it is a vertebrate or an invertebrate?

Vertebrate animals are then divided into 5 main groups. These groups are FISH, AMPHIBIANS, REPTILES, BIRDS and MAMMALS. To sort animals into these groups, they use the following characteristics.

- Have dry scaly skin.
- Have feathers and wings.
- Suckle their young.
- Breathe only through lungs.
- Have beaks and no teeth.
- Covered in scales.
- Covered in hair.
- Need water to breed.
- Have fins and gills.
- Breathe through moist skin and lungs.

Q2. Look at the list of characteristics above. There are two characteristics for each vertebrate group. Write them in the correct boxes. In each box, also write the name of two animals that belong to that group.	Amphibians	Birds
Fish	Reptiles	Mammals

WRITE:

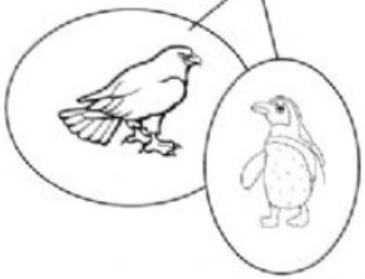

FISH
MOLLUSCS
MAMMALS
VERTEBRATES
REPTILES
BIRDS

THE ANIMAL KINGDOM

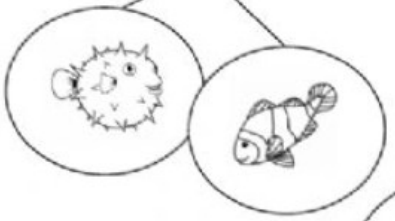

INVERTEBRATES

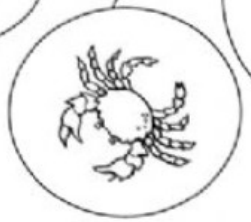

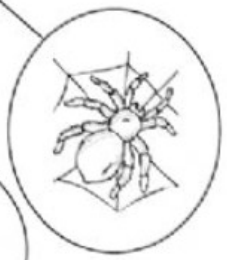

ARTHROPODS

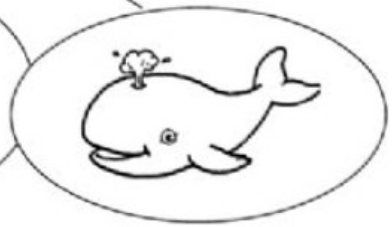

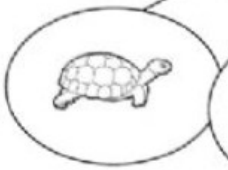

AMPHIBIANS

Name _____ Class _____ Date _____

Chapter 5 Classification — Enrichment Worksheet 5

Use with Section 5–2

Classification of organisms

Skills: analyzing, classifying, generalizing

Use the information in the classification table to answer the questions.

Table 1 Classification of Plants

CATEGORY	Sphagnum moss	Blue spruce	Aster	Sunflower
KINGDOM	*Plantae*	*Plantae*	*Plantae*	*Plantae*
DIVISION	*Bryophyta*	*Tracheophyta*	*Tracheophyta*	*Tracheophyta*
CLASS	*Musci*	*Gymnopermae*	*Angiospermae*	*Angiospermae*
ORDER	*Sphagnales*	*Coniferales*	*Asterales*	*Asterales*
FAMILY	*Sphagnaceae*	*Pinaceae*	*Compositae*	*Compositae*
GENUS	*Sphagnum*	*Picea*	*Aster*	*Helianthus*
SPECIES	*effine*	*glauca*	*concolor*	*maximillani*

1. Which two organisms in the table are most closely related? How do you know? _____

_____

2. Which organism in the table is least related to the others? Why? _____

_____

3. To which order does the blue spruce belong? _____

_____

4. What is the scientific name of the blue spruce? _____

5. How do the classification groupings of plants differ from the classification groupings of animals?

_____

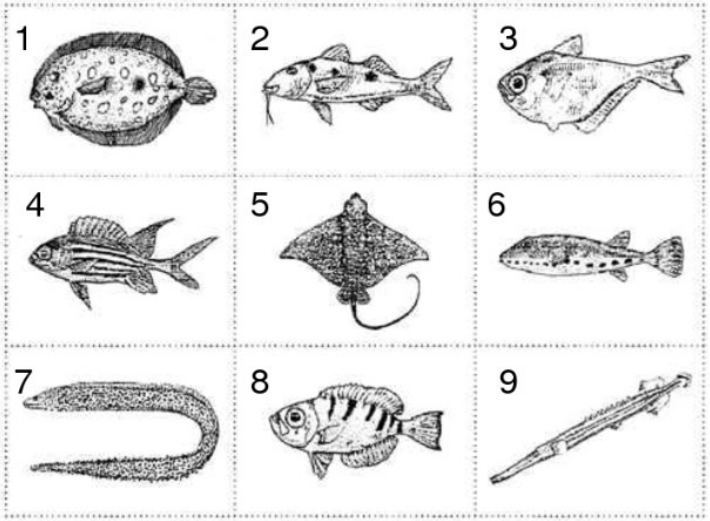

_____

6. What generalization can you make about identifying how closely organisms are related?

_____

_____

Coral Reef Fish Dichotomous Key

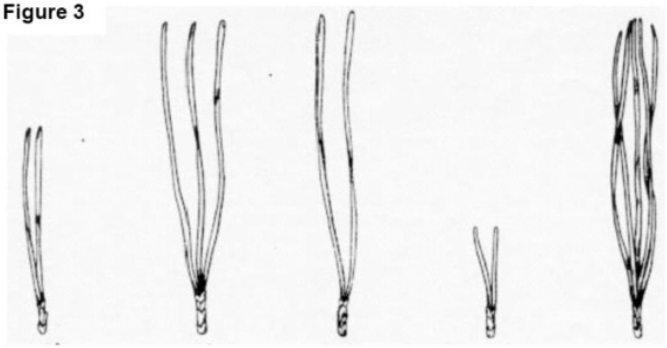

Use the dichotomous key to determine the species of each fish. Write the number of the fish picture next to its name.

Step 1	a. If fish shape is long and skinny then go to step 2 b. If fish shape is not long and skinny, then go to step 3
Step 2	a. If fish has pointed fins, it is a trumpet fish = _____ b. If fish has smooth fins, it is a spotted moray eel = _____
Step 3	a. If fish has both eyes on top of the head, then go to step 4 b. If fish has one eye on each side of the head, then go to step 5
Step 4	a. If fish has long whip-like tail, it is a spotted eagle ray = ____ b. If fish has short, blunt tail, it is a peacock flounder = _____
Step 5	a. If fish has spots, then go to step 6 b. If fish does not have spots, then go to step 7
Step 6	a. If fish has chin "whiskers," it is a spotted goat fish = _____ b. If fish does not have chin "whiskers," it is a band-tail puffer = _____
Step 7	a. If fish has stripes, then go to step 8 b. If fish does not have stripes, it is a glassy sweeper = _____
Step 8	a. If fish has a v-shaped tail, it is a squirrel fish = _____ b. If fish has a blunt tail, it is a glass-eye snapper = _____
