Explanations

Look carefully at the food chain below. Explain what you can see in the picture. Try and use scientific words. Start with the plant.

1. The green plant uses sunlight to make its own food. The arrow shows that the energy is transferred from the plant to the worm. The plant is a producer.

2. _____
_____
_____
_____

3. _____
_____
_____
_____

4. _____
_____
_____
_____

Remember: This is where you use your scientific knowledge. Don't miss stuff out.
