Classifying

This process is called classification.

It is important to remember that things can be classified in many different ways, depending on the characteristics used to start dividing them into groups.

There are so many different things in both the living and non-living world that if we don't have some system to sort them into groups, it would be impossible to deal with them.

Here is a first paragraph for a report.
What do you think the topic of the report is? _____
